When it comes to selecting the right bathroom taps and faucets for your home, look no further than Restoration Online. With over 40 years of expertise under our belt when it comes to sourcing quality [tapware](#) for new builds, remodelling, renovations and period-style replacements, we've got everything you need in one place.

We specialise in contemporary fittings as well as original fittings and fixtures. Our extensive range of [bath taps](#), [basin taps](#), [bidet taps](#) and [shower taps](#) will fit any new modern or vintage bathroom design. Check out our extensive collection today.

Our Heritage Bathroom Taps

In Australia, we sell a large variety of heritage bathroom taps made by CB Ideal, such as sink taps that have old fashioned swivel spouts and cross handles. You can select from a wide variety of tapware like basin [mixer](#) taps, [wall-mounted taps](#), [telephone](#) taps and flick mixer taps, to name a few categories.

Whether you're looking for simple chrome [pillar](#) taps, antique style taps like those with ornate porcelain levers, or something in between, our team of experts are here to help you find the perfect fit for your bathroom.

Stylish, Modern Bathroom Faucets

Looking for something sleek and contemporary? No problem, we've also got you covered here with an extensive selection of quality modern tapware to suit even the most minimalist of tastes.

After kitchens, bathrooms are one of the most used rooms in a household from inhabitants to guests. Your bathroom can be subtle and stylish or a bold statement – the possibilities are endless.

How to choose the right bathroom tap

When it comes to choosing the right [bath taps](#) for your home, it comes down to both style and practicality. There's no point buying the perfect replica taps if they're impossible to use, or stick out like an eyesore and don't match your bathroom's design and decor at all.

When it comes to tapware, we're looking for a balance between form and function. Bathroom tapware can also be fun to mix things up a little or complete harmoniously with the same sets of tapware – it depends on the existing style of your home and bathroom and what your tastes are.

That's why we have such a huge selection of tapware available, as well as expert staff on hand to help guide your decision making, answer all your questions and recommend quality stockists if we don't have what you're looking for – we're here to help you find the best solution.

We also have a range of [disability-friendly](#) bathroom faucets – ideal for making public bathrooms more accessible to all.

Quality bathroom tapware

Depending on the brand, bathroom faucets come with a variety of handles. Roulette cross handles, capstan cross handles, metal or white lever with patented rapid action, and engraved hot and cold buttons.

Our tapware spans ceramic, brass, stainless steel, porcelain and everything in between. You'll also want to check with a licenced plumber what kind of piping your bathroom has to ensure you pick the right fittings and avoid disappointment.

If you're renovating or building a new home, we recommend you leave selecting your tap fittings towards the end to ensure that what you get complements and unifies your home's aesthetic.

How to install bathroom faucets

While it might be tempting to DIY installing your bathroom faucets, we recommend a licensed plumber to handle installing all your tapware. The last thing you want is to install your taps incorrectly and then deal with long term repercussions which can result in wasted time and money.

A plumbing professional will be quick, thorough, and able to pick up anything else that might be going on where your pipes and tapware are concerned – it pays to have a professional when it comes to installing tapware.

Customer Service ▾

email, chat or over the phone – whatever you prefer. No question is too tough, and we love helping our customers find their perfect fittings to complement their homes and lifestyles.

No matter whether you are remodelling your old bathroom or building a new one, we'll have the right solution for you when it comes to your bathroom tapware. If we don't have the right item in stock, you have our word that we'll help point you in the right direction to find what you seek.

Explore our wide range of contemporary and traditional reproduction bathroom tapware sourced from world-leading manufacturers, brands and designers. Rest assured that our team does a thorough consistency and quality check before your order is shipped to ensure that you get the right products on time, the first time. Buy bathroom taps online at Restoration Online now.
